Peru Production Base

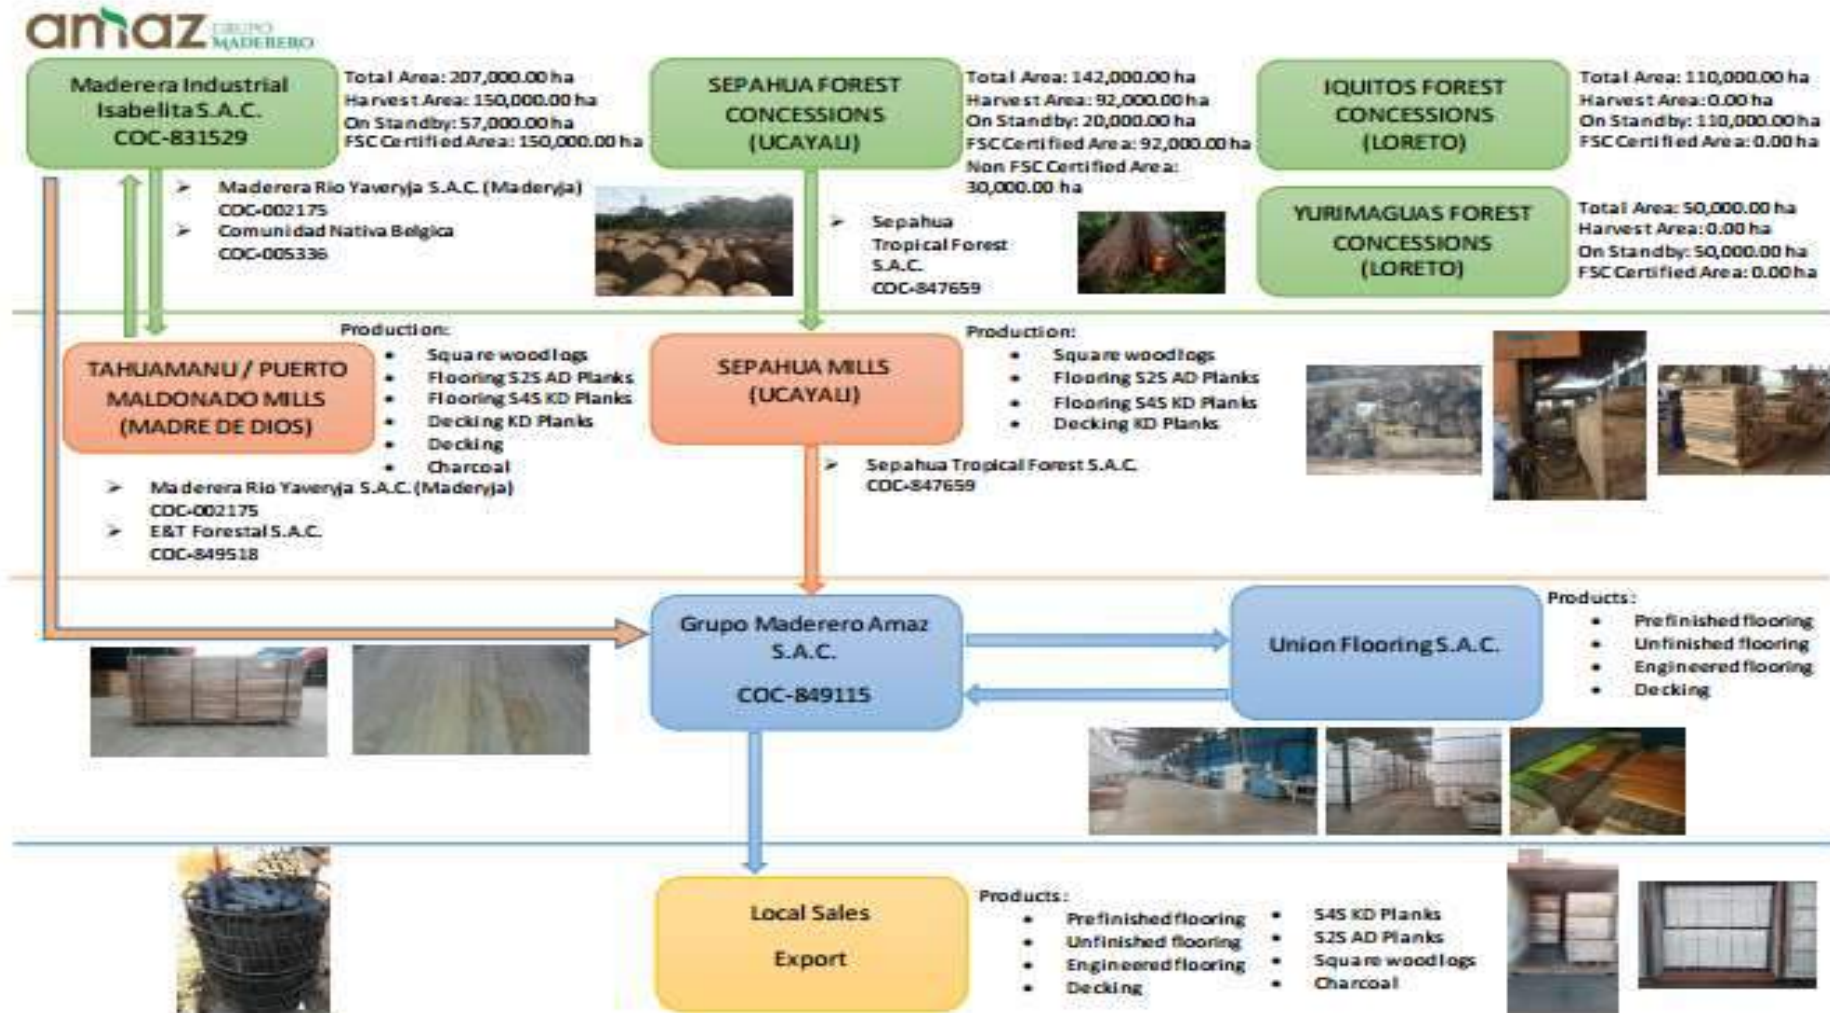

Manufacturing Factories

- 5 Factories with 700 employees
- Established in 2008
- The capacity of log processing is up to **10,000m³** per month
- Export **150 containers** per month
- One of the largest wood products exporters in Peru
- Guaranteed legal procedure from log to export

Peru Base (Forest-Factory-Products Flow Chart)

Forest Management

SUSTAINABLE MANAGEMENT

Consists on a responsible administration of the forest natural resources. It seeks to conserve the forest in its original state while taking advantage of its natural resources. Regarding the ecosystem maintenance, it has been statistically proven that a responsibly managed forest is even better than an untouched forest.

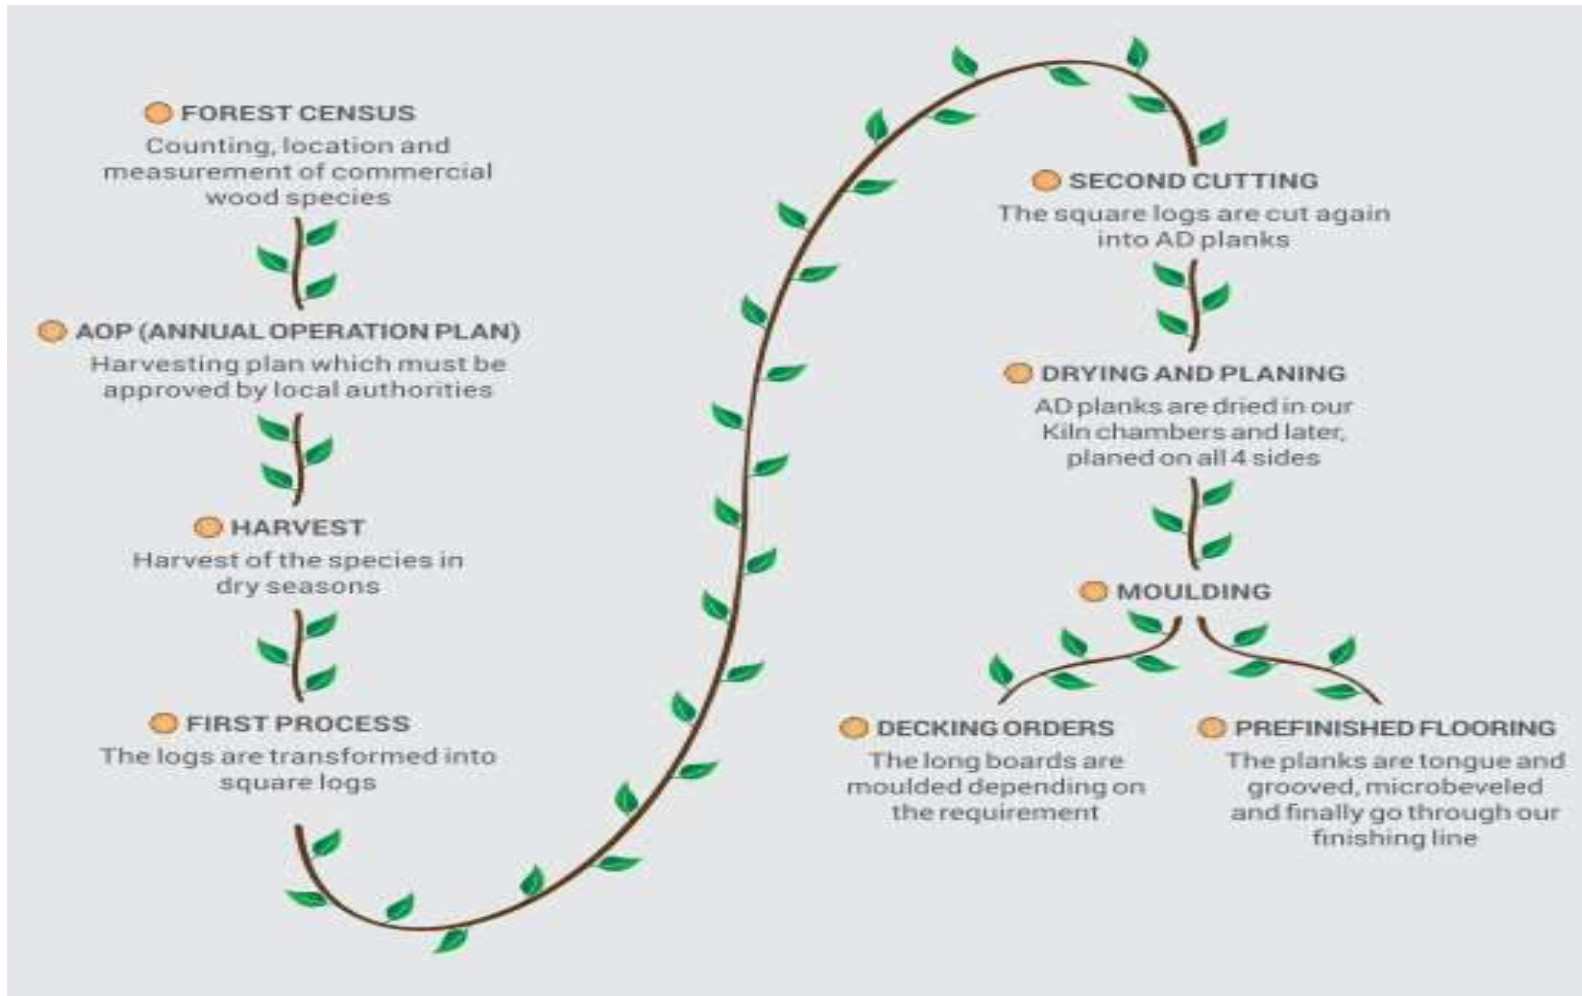

FSC CERTIFICATION (FOREST STEWARDSHIP COUNCIL)

We care about the environment and conservation of the ecosystem. For this reason, we have FSC certification throughout our production chain, which guarantees our responsibility of forest management and wood traceability.

REDD PROJECT

Amaz Floors is part of The Madre de Dios Amazon REDD Project which focuses on the reduction of emissions from deforestation and degradation. In this project, we prove that we in our forest, thank to our intervention in the forest and social projects, there is a reduction of CO2 emissions.

Your Best Hardwood Choice

Forest

280,000 hectares of FSC certified forest

Logs

More than 100,000 cubic meters of logs are harvested annually from legal forest

Species

Various species including Cumaru, Macaranduba, Ipe, Jatoba, Padouk, Okan, Tali, Azobe, Okoume...etc.

Factory

6 factories, with 15 years of mature processing experience and accurate processing capacity to provide stable quality

Category

Outdoor decking, floor materials, converted timber, finished flooring, oak logs and charcoal.

Production Capacity

10,000 m³ outdoor decking, 40,000 m³ sawn wood (including floor materials), 300,000 m² finished floor, and 10,000 tons of charcoal

Legitimacy

100% **LEGAL** from logs to exports

Services

Providing **one-stop customers service** with our own warehouse and logistics in Libreville, Lima
